PROFILE

Enthusiastic front-end developer with practical experience in React, Firebase, and modern web technologies. Seeking an opportunity to apply my skills in building interactive and responsive web applications while contributing to a collaborative development team.

PROJECTS

Instagram Clone

ROLE: FRONT-END DEVELOPER

- Created a clone of Instagram with features like photo uploads, likes, and comments.
- Utilized React for dynamic rendering and state management.
- Integrated with Firebase for user authentication and data storage.

Real-Time Chat App

ROLE: FRONT-END DEVELOPER

- Developed a real-time chat application using React and Firebase.
- Implemented user authentication, message handling, and real-time updates.
- Designed a responsive UI for seamless chat experience across devices.

Vidtube-Youtube Clone

ROLE: FRONT-END DEVELOPER

- Built a YouTube clone with video search and playback functionality.
- Integrated with the YouTube API to fetch and display search results and recommended videos.
- Designed a user-friendly interface with responsive layouts.
